ABOUT PIARC

The World Road Association (PIARC) is a non-profit organization, founded in 1909 to improve international cooperation and to encourage progress in roads and road transport.

The study, which is the subject of this Manual, was defined in the PIARC Strategic Plan 2012-2015 approved by the Council of the World Road Association, whose members represent the governments of its member countries. The members of the Technical Committee responsible for this report were chosen by the governments of these countries for their particular expertise.

The opinions, findings, conclusions and recommendations expressed in this publication are those of the authors and do not necessarily reflect the views of the organizations or bodies to which they belong.

This report is available on the website of the World Road Association (PIARC): <http://www.piarc.org>
